It's important to us that we strike a balance between direct and distant, assisting you through the portraits and melting away during the formalities. We're more than happy to guide the way if it means we make a great photo incredible - but only if you're cool with it.

We both have years of experience when it comes to weddings, having photographed more than 300 weddings between us. A huge part of our job is to ensure you're as comfortable as possible, putting in endless effort from the moment you reach out, until your gallery is safely delivered.

We love what we do, and want to make sure you love every second of your big day!
